BIOLOGY Study Guide CH 4 Ecosystems & Communities _____-the average year after year conditions of temperature & precipitation in a particular region. List three factors other than precipitation & temperature that contribute to the Earth's climate.

BIOLOGY Study Guide CH 4 Ecosystems & Communities

Aquatic ecosystems are any water-based environment in which plants and animals interact with the chemical and physical features of the aquatic environment. Aquatic ecosystems are generally divided into two types --the marine ecosystem and the freshwater ecosystem. The largest water ecosystem is the marine ecosystem, covering over 70 percent of the earth's surface.
