The downloadable sample shows how to use asynchronous action methods effectively. The sample provided was designed to provide a simple demonstration of asynchronous programming in ASP.NET MVC 4 using .NET 4.5. The sample is not intended to be a reference architecture for asynchronous programming in ASP.NET MVC.

The PagedList.Mvc package installs a paging helper that displays the paging buttons. From the Tools menu, select NuGet Package Manager and then Manage NuGet Packages for Solution. In the Manage NuGet Packages dialog box, click the Online tab on the left and then enter "paged" in the search box. When you see the PagedList.Mvc package, click Install.
