...

Each unit is designated by three two-digit numbers (e.g. 99.01.01), which represent the year, seminar volume, and unit. The Index does not indicate whether the units are primarily for elementary or secondary school grades because a great many of the units, whatever their original audience, are readily adaptable for use across a wide range of ...

The noon Gun in Cape Town can be heard as far as the Parow area if listening closely; Indeed, the city was widely renowned as "The Tavern of the Seas". [1] [2] There were no telephones or telegraphs before the latter half of the 19th century and the sound of the guns travelled much faster than a dispatch rider on a horse.

Noon Gun - Wikipedia

Physics BSc, University of Birmingham. Flexibility is the essence of this undergraduate degree course allowing you to select a range of modules to suit particular interests leaving space for you to specialise later.

Physics BSc - University of Birmingham

The foot (pl. feet), standard symbol: ft, is a unit of length in the British imperial and United States customary systems of measurement. The prime symbol, \prime , is a customarily used alternative symbol. Since the International Yard and Pound Agreement of 1959, one foot is defined as 0.3048 meters exactly. In both, customary and imperial units, one foot comprises 12 inches and one yard comprises ...
