Epabx User Manual

With multi telecom lines & EPABX in every location we were having hell of a time in managing all, in fact we had an exclusive resource to troubleshoot this as part of our IT team. With 6 PRI lines and rentals close to 65,000/- per month got reduced to 20,000/- per month with 2 PRI lines, a whopping 69% savings month on month.

A private branch exchange (PBX) is a telephone system within an enterprise that switches calls between users on local lines, while enabling all users to share a certain number of external phone lines. In contrast to a public switched telephone network (PSTN), the main purpose of a PBX is to save the cost of requiring a line for each user to the telephone company's central office.

What is a PBX Phone System and How Does it Work?
