Falling To Earth An Apollo

Apollo 13 (April 11 - 17, 1970) was the seventh crewed mission in the Apollo space program and the third meant to land on the Moon. The craft was launched from Kennedy Space Center on April 11, 1970, but the lunar landing was aborted after an oxygen tank in the service module (SM) failed two days into the mission. The crew instead looped around the Moon and returned safely to Earth on April 17.

Atlas was one of the most famous Titans, the son of Iapetus and the Oceanid Asia (or, possibly, Clymene). He was the leader of the Titan rebellion against Zeus, and he got a fitting punishment after the end of the Titanomachy: he was condemned to eternally hold up the sky. Only once, and for a very brief period, he was bereaved of this burden by Heracles.
