Because live indoor concerts with a standing audience meet all those conditions, they were identified as highly risky environments for spreading SARS-CoV-2. The French government decreed a general ban on gatherings of greater than 5000 people on Feb 28, 2020, which was subsequently extended to all gatherings on March 17, 2020.

Prevention of SARS-CoV-2 transmission during a large, live ...

Literature reviews play a critical role in scholarship because science remains, first and foremost, a cumulative endeavour (vom Brocke et al., 2009). As in any academic discipline, rigorous knowledge syntheses are becoming indispensable in keeping up with an exponentially growing eHealth literature, assisting practitioners, academics, and graduate students in finding, evaluating, and ...

2.1. Rhabdomyolysis. Rhabdomyolysis, the most severe form of acute muscle disease associated with statins, is fortunately, very rare, affecting less than 1 patient per 100,000 treated per year with these drugs []. High CK concentrations (>100-fold the upper limit of normality) are characteristic of rhabdomyolysis, but what defines the syndrome is evidence of myoglobinuria and renal impairment ...

Statin-induced myalgia and myositis: an update on ...

New high-quality evidence has produced major changes in the evidence-based treatment of patients with acute ischemic stroke (AIS) since the publication of the most recent "Guidelines for the Early Management of Patients With Acute Ischemic Stroke" in 2013. 1 Much of this new evidence has been incorporated into American Heart Association (AHA) focused updates, guidelines, or scientific ...
