You can't see it but they're smiling from ear to ear behind those masks. Why? Because our Emory Reproductive Center nurses are the absolute best!

Emory Department of GYNOB on Instagram: "You can't see it ...

Technically, life expectancy is the average number of years of life remaining to a person at any specified age. The most commonly used measure is life expectancy at birth, which estimates the average number of years a newborn can expect to live. Life expectancy is also calculated for other ages, for example at ages 30, 65 and 85 years.
