The game of Monopoly, used in Chapter 8 "Social Stratification" to illustrate U.S. stratification, again helps illustrate global stratification. Recall that if five people play Monopoly, each person would start out with \$1,500. If each player represented one-fifth of the world's population, and we divided the \$7,500 according to the global distribution of income, then the richest player ...

9.1 The Nature and Extent of Global Stratification - Sociology

Social movements are purposeful, organized groups that strive to work toward a common social goal. While most of us learned about social movements in history classes, we tend to take for granted the fundamental changes they caused —and we may be completely unfamiliar with the trend toward global social movements.
