### Whats The Answer To Level

Unlike the wildly popular Netflix chess-themed series The Queen's Gambit, female players have struggled to climb to the top of the real-life chess world. Just 37 of the more than 1,600 ...

### Whats behind the gender imbalance in top-level chess?

Sea level is rising, in part, because melting glaciers on land are adding more water to Earth's oceans. Glaciers – large sheets of ice and snow – exist on land all year long. They are found in the mountains of every continent except Australia. Greenland and Antarctica contain giant ice sheets that are also considered glaciers.
